

## Stile over wire fence

Specifications:

- Step tops should be 1100 mm long (1000 mm minimum) and 250 mm wide (200 mm minimum) and typically to be 50 mm thick (for wood)
- Typical stile leg dimensions: 150 mm x 75 mm x 1000 – 1500 mm
- There should be no barbed wire between posts where the stile is located
- Any barbed wire near to the hand post should be covered or de-barbed for 300 mm (minimum)
- There should not be any exposed barbed wire between the stile posts
- A rail should be installed to provide a solid step-over between posts (The rail can be above mesh, plain or de-barbed wire; or the upper-most wire can be securely fastened to the rail to avoid a trip hazard)
